

WILBURN GARDENS

4/27/07

Dear John,

We wanted to let you know how much your Olfactor cleaning product is helping us keep our Assisted Living facility clean and odor free. We use the product to eliminate the odor of urine and feces on our carpeting and other hard surfaces. We have found it particularly helpful in our Alzheimer's unit. Our housekeeping staff uses it on the hand rails, floors, and bathrooms. The staff has commented on how much they love the pleasant fragrance it leaves behind.

When we use it on carpets, we extract the carpet first, and then mist the floor with a mixture of 50% water and 50% Olfactor. Doing this has saved us hundreds of dollars by not having to replace the carpets. We've found nothing that can eliminate the odors as well as Olfactor!

We would recommend Olfactor to any health care facility that has to manage the inevitable odor issues that occur. Thanks for providing such a great product.

Sincerely,

Jessica Kells, Marketing Director
